Professional Summary:

Full Stack Developer with hands-on experience building scalable web applications and SaaS platforms using Laravel, React, and Next.js. Strong expertise in designing and consuming RESTful APIs, implementing authentication and authorization, and developing real-time, database-driven systems. Experienced with Docker-based containerization, CI/CD pipelines, and AWS cloud fundamentals, with a proven ability to translate business requirements into secure, high-performance, and maintainable software solutions

Projects

Point of Sale Multi-tenance System

Laravel & React

- Designed and implemented a **multi-tenant SaaS POS system** supporting multiple companies with secure data isolation
- Developed **sales management, inventory tracking, cashier roles, and branch management** features
- Built **subscription plans, usage limits, and admin dashboards** for tenant control and scalability

Real Chat Application

Laravel, Inertia & React

- Developed a real-time chat application using **Laravel Broadcasting and Reverb** for instant messaging
- Implemented user authentication, private conversations, message persistence, and read status tracking
- Built a responsive React interface with efficient state management and optimized API communication

Learning Management System

Laravel & Livewire

- Built a **full-featured LMS platform** supporting courses, instructors, students, and role-based access
- Implemented **course management, enrollments, progress tracking, and certification logic**
- Designed a **dynamic Livewire interface** for real-time interactions and improved user experience

Education & Certification

Professional Online Training — 500+ Hours

Udemy | 2023 – Present

- Computer Science & Software Fundamentals
- Back-End Development: Laravel, RESTful APIs, Authentication & Authorization
- Front-End Development: HTML5, CSS3, JavaScript (ES6+), React, Next.js

Web Development Courses

MEC & RCC | 2022 – 2024

- Web Development Diploma (5 months) PHP Full-Stack Development (4 months) With RCC
- Backend Development Course with MEC

Bachelor's Degree in Surveying

Minia University | 2021 – 2025

Core Skills

Back-end:

- PHP & Laravel (10 - 12)
- Node.js (express)
- Auth & Authorization (JWT, sanctum)
- Multi-Tenant Architecture

Front-end:

- HTML, CSS, JavaScript & TypeScript
- React 19 & NextJS
- Inertia
- Tailwind & Bootstrap

Additional Skills

- Database:** SQL, MySQL, PostgreSQL, MongoDB
- DevOps & Cloud:** Docker, Docker Compose, CI/CD with GitHub Actions, Linux Basics, Deployment Workflows, AWS Fundamentals (EC2, S3, IAM, ECR)
- Software Engineering:** System Design, Database Design & ERD, Agile, Git & GitHub
